1. OBJECTIVE

The City of Johannesburg Metropolitan Municipality (including some of its entities) ("COJ") seeks the provision of office accommodation and parking facilities from the private sector through competitive bidding process, in terms of a lease for a period of 9 years, 11 months.

The proposed lease agreement for office accommodation and parking facilities will be for a period of more than three (3) years and will impose financial obligations on the COJ for more than three (3) years, thus the COJ must therefore comply with Section 33 of the Local Government: Municipal Finance Management Act, 2003 (Act No. 56 of 2003) ("MFMA"); Section 4(3) of the Promotion of Administrative Justice Act, 2000 (Act No. 3 of 2000) as well as Section 21A of the Local Government: Municipal Systems Act, 2000 (Act No. 32 of 2000).

The objective of this Information Statement is to inform the community and any other interested parties and stakeholders of the proposed leases for the provision of office accommodation and parking facilities to the COJ.

2. PROJECT BACKGROUND

The COJ's Metro Centre is a building approximately 50 years old, providing office accommodation and parking to some staff belonging to the COJ's Legislative, Executive and Administrative arm, as well as, some of the COJ's key departments. A building of this age requires refurbishment every 15 years, to keep its structure and operating components at optimum performance levels. Furthermore, there are a host of legislation and regulations in place that further pronounces on building standards and infrastructure requirements that when complied with certify a building for occupancy.

Over the years, due to budget priorities insufficient budget was allocated to Metro Centre to ensure that, the building remains in a habitable and safe state for the COJ personnel and the public. In 2019, JPC commissioned a detailed study undertaken by engineers and other professionals. The assessment report confirmed the hazardous state of Metro Centre and confirmed JPC's internal assessment of the hazardous state of the building.
